SECTION 5: FIRE-FIGHTING MEASURES

Flammability Class..... Flammable.

General Information..... As in any fire, wear a self-contained breathing apparatus in pressure-demand, MSHA/NIOSH (approved or equivalent), and full protective gear. Vapours may form an explosive mixture with air. Vapours can travel to a source of ignition and flash back. Use water spray to keep fire-exposed containers cool. Containers may explode in the heat of a fire. Vapours may be heavier than air. They can spread along the ground and collect in low or confined areas.

PRODUCT: Dermaguard 10% Family Pump**CODE: P3-90107****SECTION 5: FIRE-FIGHTING MEASURES**

Extinguishing Media..... In case of fire, use water, dry chemical, chemical foam, or alcohol-resistant foam. Use water spray to cool fire-exposed containers. Water may be ineffective. Do NOT use straight streams of water. For large fires, use dry chemical, carbon dioxide, alcohol-resistant foam, or water spray. Cool containers with flooding quantities of water until well after fire is out.

Hazardous Combustion Products..... Under fire conditions this product will support combustion and may decompose to give off toxic gases such as carbon monoxide, carbon dioxide and nitrogen oxides.

SECTION 6: ACCIDENTAL RELEASE MEASURES

General Information..... Use proper personal protective equipment as indicated in Section 8.

Spills and Leaks..... Large spills are not expected in aerosol spray. However, if occurred through manufacturing process, absorb spill with inert material (e.g. vermiculite, sand or earth), then place in suitable container. Remove all sources of ignition. A vapour suppressing foam may be used to reduce vapours.

SECTION 7: HANDLING AND STORAGE

Precautions for Safe Handling..... Avoid contact with eyes. Avoid ingestion and inhalation. Wash thoroughly after handling . Empty containers retain product residue, liquid and/or vapour, it can be dangerous. Use in well ventilated area. Avoid contact with heat, sparks and flame. Do not pressurize, cut, weld, braze, solder, drill, grind, or expose empty containers to heat, sparks or open flames.

Conditions for Safe Storage including any Incompatibilities Container is under pressure. Keep away from heat, sparks, and flame. Keep away from sources of ignition. Store in a cool, dry, well-ventilated area away from incompatible substances.
